DETAILED ACTION

Applicants' arguments, filed 6/9/2008, have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 103

The rejection of claims 1-12 and 14-20 as being unpatentable over Adams et al., in view of Achard et al. is maintained. This rejection also applies to newly amended claims 13 and 21.

Applicant argues that the compounds of Archard are not "very close" in structural similarity to those of Adams and the instant application and that one skilled in the art would not have had any reasonable expectation that the instant compounds were suitable for the treatments of Archard. However, the compounds of Archard are similar insofar as they have the same core structure where the substituents attach from the position 1 nitrogen and the position 3 carbon. They also may contain similar substituents such as a carbamine and a phenyl group. The compounds of Archard also treat the same CNS disorders of Adams as well as others, namely bulimia and obesity. Because the compounds of Archard are useful in treating bulimia, an excessive food intake disorder, as per claims 1, 13 and 21, the artisan would reasonably expect the compounds of Adams to treat bulimia as well. Because the compounds of Adams are

useful in treating symptoms related to substance abuse, the artisan would also expect the compounds to treat smoking cessation, since smoking is a form of substance abuse.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
